

Island Impact Ministries Liability & Release Waiver

Travel to a foreign country always involves a certain level of inherent risk. While Island Impact seeks to minimize these risks by providing you with clear information, there still remain certain risks such as: simple health related concerns due to ingested foods that might have been prepared improperly or that carry parasites, and security risks such as theft. You will be briefed on any particular risks we are aware of at the time of your trip. Signing this form releases Island Impact Ministries, their staff, and directors, from any liability towards your person or possessions.
